

UNICEF WORKSHOP: LEVERAGING RESEARCH AND EVALUATION FOR INFORMED DECISION-MAKING.

The Synercon team attended the event "Leveraging Research and Evaluation for Informed Decision-Making," hosted by UNICEF Pakistan in collaboration with PIDE. The emphasis was on the use of technology in data collection for which Synercon has all the expertise to meet the challenges identified in the workshop. Synercon will engage with UNICEF to facilitate them and their likes in the field of digitized data collection. The event focused on enhancing service delivery and addressing community needs through improved data sharing and transparency initiatives, emphasizing the role of data visualizations in driving informed decision-making.

SITE IDENTIFICATION FOR INTERNATIONAL BUS TERMINAL

Significant progress has been achieved in the selection of a site for the International Bus Terminal catering to Afghan and Pakistani passengers. During our recent visit to the district Khyber, a promising new site spanning approximately 39 acres was identified and proposed for development as the terminal. This initiative aims to enhance regional connectivity and facilitate smoother transit experiences for travelers.

DRONE SURVEY FOR HOTEL, MANGLA, JEHLUM

Synercon team recently deployed drone survey experts to conduct a detailed topographic assessment for an upcoming 12-story hotel in Mangla, Jehlum. Using advanced tools, they accurately mapped the land's contours and features essential for project planning. The data collected, including detailed maps and 3D models, will play a crucial role in guiding the construction process, marking a pioneering use of advanced building technology in Pakistan.

GEOTECHNICAL INVESTIGATION COMPLETION FOR 12-STORY HOTEL

Our geotechnical team has completed a crucial phase in the development of a 12-story hotel in Mangla, Jehlum. Following extensive field testing on 2nd June, the team diligently finalized their comprehensive report on 10th June after conducting rigorous laboratory testing. This milestone underscores our commitment to ensuring structural integrity and safety standards, setting the stage for a landmark hospitality project in the region.
